Dr. Miles' Heart Cure:

RAISED ON THE SITE. Contractors Have Begun Work on East Colonnade of the Varied Industries Palace.

Four stately columns on the east colonnade of the Palace of Varied Industries were raised yesterday afternoon. They stand 60 feet in the air and front what soon will ecome the grand lagoon of the Exposition, It is the highest timber constructed that

has yet been used on the site. President Rountree of the Rountree Construction Company, contractors for the uliding, stated after the raising of the columns that this work will be prosecuted with vigor, without interruption. He expects to have the great traveling crane finished within a week. It will be used to hoist the trusses of the roof into place. Contractor T. F. Hanley has arranged

with the city Waterworks Department to use 3,000 feet of 6-inch pipe, which the city has on hand, to begin the work of laying water pipe within the site. This will avoid the delay of waiting on the mills to supply the material. The supply will furnish water for domestic and fire uses. The contract calls for the laying of 18,550 feet. Major Edward A. Goodwin, Commandant of the Jefferson Guard, has taken possesssion of his quarters on the north side of Administration quadrangle. Applications for enlistment in the guard will undergo the

for enlistment in the guard will undergo the official examinations here and the general work of organization will be effected at these quarters, which are expected to take on a very military aspect.

Restaurant service has been established in the basement of Cupples Hall No. 2, on the north side of the quadrangie.

Contractor Rountree has a clever idea for a great restaurant for his force, in the central court of the Varied Industries building, during the construction period. This will be in commission within two weeks. By that time the flooring of the building, which now covers an area of two and one-half acres, will have reached the court. The contractor will erect in this open way a building 125 feet by 109 feet.

The office of the Director of Works in the building on the south side of the Administration Quadrangie, is handsomely furnished. An Axminister rug of Turkey red covers a large area in the center of the floor.

Massive furniture reposes here in the shape of a membershee.

CONSUL OSBORNE IS DEAD. Appointed to the London Post by the Late President.

London, April 29.-United States Consul General Osborne died at his residence in Wimbledon at 10:39 o'clock this morning. William McKinley Osborne was appointed William McKinley Osborne was appointed Censul General at London by President McKinley on March 18, 137. He was born at Grard, O., in 1842. Later, he removed to Boston. Mr. Osborne was a cousin of the late President McKinley.

Mr. Osborne's death was not a surprise to his friends. He had been confined to his home since November last, suffering from Bright's disease and dropsy, which, latterly, affected his heart. He was conscious until near the end. The deceased never had been absolutely well since he arrived in England.

GRAIN TRADERS IN DOUBT WHICH WAY MARKET TENDS.

PRICES EVENTUALLY TEND UPWARD BEFORE CLOSE.

Wheat Still Hard to Buy From First Hands and Crop Killer Has an Inning.

Chicago, April 29 - Grain traders seemed in doubt to-day what side of the market to espouse. Had there been anything worth thile to the outside buying, the bullish influences at hand might have pushed prices up for a good advance. As it was, the proferzional speculator was too prominent to allow a broad market and July wheat closed only 1,27% c.up. July corn 1,67% c. higher and July outs %c lower. Provisions closed 25c higher to 25c lower. Wheat.

Wheat.

Wheat.

Wheat.

Wheat.

Wheat.

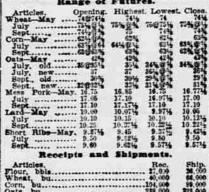

Wheat.

Wheat.

Wheat.

Wheat was firm and higher at the opening. Liverpool cables did not show a decided response to the break here yesterday, receipts were still small and Kansas was still sending in woeful reports of her crop condition. Both the Northwest and Southwest contradicted the report that farmers deliveries were liberal and said wheat was as hard to buy from first hands as at any time. Reports from North Dakota said ponds covered many of the fields and that the acreage would be reduced and that the ground would not be in fit condition to plow until the middle of May. On the other hand, rains were coplous in most of the Ohlo Valley. There was a little spurt of buying at the start, but this turned to a selling pressure later and early gains were lost. Professionals, however, continued to buy in the dull market and prices reacted slightly. July opened 456 higher to unchanged at 75½c to 75½c, advanced to 75%@ 75½c and closed firm 120%c up at 75%@75½c and 25% and 25% as a very some contract; Minneapolis and Duluth reported 125 cars, a total for the three points of 208, against 236 last week and 329 a year ago. Primary receipts were 22,009 bu. compared to 407,000 bu last year. Seaboard clearances equated 456,000 bu. The seaboard reported 5 loads taken for export to France.

Fair buying by the most prominent bull interests supported corn again to-day. Trate, however, was duil. The outsiders kept out of the market and the close showed only a slight improvement. Cables were firm, considering our position yesterday, but this influence was offset by liberal rains in the corn country. Offerings were expected to increase in the interior and receipts here were slightly better. Offerings in futures, however, were readily taken up at any decline. Dullness of the trade kept prices from good advances. July sold at 914,9644a and closed firm, 1,2240 up at 832,8234c. Receipts 128 cars. Oats received no assistance from corn or wheat. The recent heavy rains were deemed beneficial to the sown oats and receipts were much more liberal than of late. The cash demand was fair, but country offerings were expected to easily supply the demand. Some small offerings on the dull market caused recessions and July, after opening steady at 37c, closed and July after opening steady at 37c, closed and July after opening s Corn.

A good demand for lard, especially by packers, and the firm hog and grain situation upheld provisions. There was almost an entire absence of outside profit-taking, though scattered selling of pork took off much of the early gains. Trade was dull. July pork closed 2½c lower at \$17. July lard 2½c higher at \$10.12½ and July ribs a shade up at \$3.50.

Estimated receipts to-morrow: Wheat, 30 cars; corn, 75; oats, 130; hogs, 27,000 head.

Wall Street Gossip.

Reported by the New York Commercial Ad-ertiser through Francis, Bro. & Co., No. 214 vertiger through Francia, Div. A. North Fourth street:

Foreign-London operations in this market were on a very moderate scale, aggregating about 21.50 shares, sales preponderating. The arbitrage houses bought Southern Pacific and a little Reading, and sold Union Pacific, Louisville and Nashville, Atchison and others.

Vanderbilt Group—The various Vanderbilt shares were among the sarly strong features, the higher priced scoring practically sharp advances. The buying of these stocks continued to perplex the street. In some instances the rise seemed due to manipulation designed to influence the rest of the market, while in others the buying was of so confident a character as to justify rumors of an important plan, though it was recognized that no "holding company" would be formed until after the declaration of decision in Northern Securities case. One story was that Chicago and Northwestern stockholders would receive a dividend on debenture stock, since an increase in dividend rate was considered inadvisable and impolitie.

The Grangers-Rock Island rose sharply in the early dealings on manipulative buying by the Chicago inside clique, said to have been prompted by the desire to make the new bonds attractive. St. Paul became the leader of afternoon trading. It was bought by Strong, Sturgis & Co., followed by brokers said to have received, orders from the Gales party. The advance in St. Paul stimulated the trading in other stocks and imparted a decidedly better tone to the market in the last hour.

Atchison-The common stock was bought by Strong, Sturgis & Co. and scattering commission houses and traders, as well as by Keene brokers, The room, however, credited the movement to the Chicago contingent. Built tips circulated freely and were heeded by the room element, who claimed that the buying was of a confident character.

Wheeling and Lake Brie-In the later dealings Chicago and Great Western and Wheeling and Lake Eric common and first preferred stocks became active and strong, leading to reports that a well-known operator identified with these shares in the past, had returned to this city after a three months absence and begun active operations in his old specialities. In the case of Wheeling, however, it was pointed out that the Wabash plans all tended materially to enhance the value of Wheeling securities.

Miscellaneous – American Locomotive Issues made new high records to-day on excellent commission-house huying based upon trade reports. Brooklyn Rapid Transit was inclined to react on profit-taking. The new bonds sold on the curb at 511-685%, when issued. Canadian Pacific showed heaviness on selling by Canadian houses, whose buying caused the recent sharp advance. Manhattan was quietly bought by commission houses in position to know the attitude of the controlling interest toward the stock market.

roosters 7a. Turkeys 1991ic. Ducks Western, pair 70g89c; do. Southwestern 60g70c. Gesse-Western, prime, pair 11g1.12; do. Southwestern 72g70c. Pigeons—Pair 20g40c.

Tressed poultry: Receipts to-day 6,224 packages. The fresh receipts this morning were moderate, but there was considerable of yesterday's stock unsold, and with the Jews still absent and no other demand to speak of the tone was rather easy, and finest marks of dry-picked loef fowls could be had at 12c and most buyers could have could be had at 12c and most buyers could have could be had at 12c and most buyers could have cause ding 12c. Some receivers, who anticipated the usual duliness in trade that occurs at 1st of May, urged sales at less than quotations. Squabs were more pientiful and market was about sustained. The movement in frozen fowls limited, although values were maintained. Funcy early-packed roasters firm. No change in quotations.

Eggs.

REPUBLIC SPECIAL.

New York, April 21.—Eggs.—Receipts to-day 27.—911 causes. The receipts were very heavy, but the great bulk of them went directly into store and the amount offered to meet current demands was light, with the effect of maintaining prioss as already established. The tone of prices, however, must be considered as easy and it would not be possible to force sales unless at a concession. Holders draw some encouragement from reports of light collections, which may, however, apply only to restricted retritory, but it was evident that buyers were not taking goods ahead of immediate wants and were more critical as regards quality. There was a fair demand for dirties in lots that ran to small eggs, which had been supplied to the same of the same REPUBLIC SPECIAL.). Southern 15c. Chlesgo, April 29.—Eggs firm; fresh 1514c per Kansas City, Mo., April 22.—Eggs firm; at mark new No. 2 whitewood cases included 160 foz.; cases returned 124c.

St. Louis Money Market. Clearings were above the average of the last week, and there was a heavy increase in the volume of business at the banks. Discount rates were steady between 4% and 5½ per cent. FARMINGTON LICENSE CASE.

Appellate Court's Ruling Affecting Insurance Agents.

Insurance Agents.

The Court of Appeals yesterday sustained the finding of the lower court in the case of J. B. Rutherford, who was fined at Farmington, Mo., for violating an ordinance requiring insurance companies and their agents to pay 35 a year license.

The evidence showed that Rutherford was agent for the Safety Fund Life Association of St. Louis, which had not paid the license as an agent and that he could not be punished for the offense of the company.

Judge Bland, who wrote the opinion, states that both company and agent are required to take out a license. As the company had not taken out the license it was not authorized to do business in Farmington, and Rutherford's offense consisted in acting as the agent of a company which was not authorized to do business, the Judge stated.

Other decisions were:

By Judge Bland:

W.A. desse et al., app., va. J. W. Mears, in-

lly supply the demand. Some small offerings on the dull market caused recessions and July, after opening steady at 37c, closed weak, %c lower at 36%c. Receipts 255 cars.

Trials Which Beset a Minister in Indian Territory.

For many long years the Reverend William R. Brock of Provence, I. T., was burdened with troubles more than fall to the lot of the average man, but finally he was able to throw them off and now tells entertainingly how he accomplished it. He says:
"When I was a boy of about twelve years, I had what a boy seldom has—rheumatism. I had been in bad health for some months and was taken out of school on account of it. But I kept getting worse and at one time could hardly get around. This I suppose undermined my health and was the cause of the later troubles which afflicted me.

me.

"Some sixteen years ago I developed a torpid liver and an enlarged spleen which finally caused a chronic diarrhoea. This is itself was very weakening but, in addition inally caused a chronic diarrhoea. This in itself was very weakening but, in addition to that, my stomach refused hearty food, I had a severe pain in my side aimost all the time and, when I walked any distance, I became out of breath, with a feeling of burning at the heart. My head and limbs would ache fearfully, especially at night. Then my rheumatism came on again and, later, I had a dry, hacking cough which nearly drove me distracted.

"I was under the care of two physicians but, although the tonics they gave me seemed to do me good for a while, the effect was only temporary. Finally I was induced to try Doctor Williams' Pink Pills for Pale People by an advertisement in a paper which toid of the cure of a case similar to mine. This was four years ago. I took them and eight boxes made me well. I am now well and strong and Doctor Williams Pink Pills for Pale People have made me provided that affects well as the provided that and strong and Doctor Williams Pink Pills for Pale People have made me provided took a medicine that affacts.
